Research Letters

Proteins induced by DNA-damaging agents in cultured Drosophila cells
by E. Akaboshi and P. Howard-Flanders (U.S.A.) 1

Evidence from Ames assays of laboratory pulse-flame combustor samples that direct-acting mutagens are not an inevitable consequence of hydrocarbon fuel combustion
by I.T. Salmeen, W.C. Young, P. Zacmanidis and J.C. Ball (U.S.A.) 7

Genotoxicity of nitrosated ranitidine
by J. Franekić, Š. Skupnjak and Z. Matijašević (Yugoslavia) 13

Relationship between DNA replicon size and SCE induction in BALB/c and BALB/Mo mouse lymphocytes
by F. Majone, L. Busulini, A. Capozzi, N. Bianco, D. Saggioro, A.G. Levis and F. Bordin (Italy) 17

Lack of sister-chromatid exchange induction by polymethyl methacrylate bone cement in human lymphocytes cultured in vitro
by M.P. Bigatti, L. Lamberti, M. Cannas and E. Rossi (Italy) 21

Solar and UVC-induced mutation in human cells and inhibition by deoxynucleosides
by P. Musk, R. Campbell, J. Staples, D.J. Moss and P.G. Parsons (Australia) 25

A chromosome study of 6-thioguanine-resistant mutants in T lymphocytes of Hiroshima atomic bomb survivors
by Y. Kodama, M. Hakoda, H. Shimba, A.A. Awa and M. Akiyama (Japan) 31

Increased chromosomal radiosensitivity in patients undergoing radioimmunoglobulin therapy
by S. Xiao, D. Jacobson-Kram, S. Piantadosi and J.R. Williams (U.S.A.) 39

Acetaldehyde activation of poly(ADP-ribose)polymerase in hepatocytes of mice treated in vivo
by L. Clerici, M.G. Sacco and M. Merlini (Italy) 47

Mutagenic activation of aflatoxin B_1 by P-450 HFLa in human fetal livers
by M. Kitada, M. Taneda, H. Ohi, M. Komori, K. Itahashi, M. Nagao and T. Kamataki (Japan) 53

Effect of processing time on the quality of mouse bone-marrow metaphase preparations
by C.A. Luke and R.R. Tice (U.S.A.) 59

Sodium azide mutagenesis in mammals: inability of mammalian cells to convert azide to a mutagenic intermediate
by P. Arenaz, L. Hallberg, F. Mancillas, G. Gutierrez and S. Garcia (U.S.A.) 63

Letter to the Editor

Reply to 'Comment on the non-additivity of the mutagenic response of mixtures of nitrobenzo[*a*]pyrenes'
by R.H. Heflich, B.S. Hass, J.J. Chen, J.R. Thornton-Manning and P.P. Fu (U.S.A.) 69

Research Letters

Enhancement of cytogenetic and cytotoxic effects on multidrug-resistant (MDR) cells by a calcium antagonist (verapamil)
by S. Nito (Japan) 73

Induction of specific-locus and dominant lethal mutations in male mice by chlormethine
by U.H. Ehling and A. Neuhäuser-Klaus (F.R.G.) 81

Induction of specific-locus mutations in male mice by ethyl methanesulfonate (EMS)
by U.H. Ehling and A. Neuhäuser-Klaus (F.R.G.) 91

DNA sequence determination of γ-radiation-induced mutations of the hamster *aprt* locus
by C. Miles and M. Meuth (Great Britain) 97

Absence of adaptive response to low-level irradiation from tritiated thymidine and X-rays in lymphocytes of two individuals examined in serial experiments
by M. Bauchinger, E. Schmid, H. Braselmann and U. Nahrstedt (F.R.G.) 103

Induction of cytochrome P450 isozymes in human amnion FL cells
by L. Zhang, Y. Yu and X. Chen (People's Republic of China) 109

Chromosome aberrations induced by pyrolysates of carbohydrates in Chinese hamster V79 cells
by Y. Nishi, Y. Miyakawa and K. Kato (Japan) 117

Negative evidence in vivo of DNA-damaging, mutagenic and chromosomal effects of eugenol
by A. Maura, A. Pino and R. Ricci (Italy) 125

Mutagenicity of methylvinyl ketone in *Salmonella typhimurium* TA100 – indication for epoxidation as an activation mechanism
by T. Neudecker, E. Eder, C. Deininger, C. Hoffman and D. Henschler (F.R.G.) 131
Phenazine derivatives as the mutagenic reaction product from *o*- or *m*-phenylenediamine derivatives with hydrogen peroxide
by T. Watanabe, T. Hirayama and S. Fukui (Japan) 135
Mutagenicity studies on paracetamol in human volunteers
II. Unscheduled DNA synthesis and micronucleus test
by J. Topinka, R.J. Šrám, G. Širinjan, J. Kočišová, B. Binková and I. Fojtíková (Czechoslovakia and U.S.S.R.) 147
Reduced levels of mutagen processing potential in the *Schistosoma japonicum*-infected mouse liver
by H. Matsuoka, T. Aji, A. Ishii, S. Arimoto, Y. Wataya and H. Hayatsu (Japan) 153
Genotoxic evaluation of chronic fluoride exposure: sister-chromatid exchange study
by Y. Li, W. Zhang, T.W. Noblitt, A.J. Dunipace and G.K. Stookey (U.S.A.) 159
The human lymphocyte micronucleus assay: a comparison between whole-blood and separated-lymphocyte cultures
by L. Migliore, M. Nieri, S. Amodio and N. Loprieno (Italy) 167
Increase in micronucleated erythrocytes associated with babesiosis in Syrian golden hamsters
by B.G. Ormiston, C.A. Luke and R.R. Tice (U.S.A.) 173
Mutagenicity and structure–mutagenicity relationships of furoquinolines, naturally occurring alkaloids of the Rutaceae
by H. Paulini, R. Waibel and O. Schimmer (F.R.G.) 179
Reversion in thymidine kinase deficient variants of mouse lymphoma P388
by S.M. Ruddy and I. Hickey (Northern Ireland) 187
Inhibition of in vitro SV40 DNA replication by ultraviolet light
by G. Gough and R.D. Wood (Great Britain) 193
Mutagenic action of heavy ions on *Escherichia coli* cells
by B. Tokarova, K.G. Amirtayev, S. Kozubek and E.A. Krasavin (U.S.S.R.) 199
Sister-chromatid exchanges induced by mitomycin C after acute or chronic exposure of human lymphocytes to a low dose of X-rays
by J.E. Moquet, J.S. Prosser, A.A. Edwards and D.C. Lloyd (Great Britain) 207
Antimutagenic effect of garlic (*Allium sativum* L.) on 4NQO-induced mutagenesis in *Escherichia coli* WP2
by Y.-s. Zhang, X.-r. Chen and Y.-n. Yu (China) 215
A time–course study on effects of aluminium on mitotic cell division in *Allium sativum*
by A.K. Roy, A. Sharma and G. Talukder (India) 221
Two proteins of 220 kD and 230 kD bind to UV-damaged SV40 minichromosomes in irradiated monkey kidney cells
by M.L. Brown-Luedi and T.C. Brown (Great Britain) 227
G/U lesions are efficiently corrected to G/C in SV40 DNA
by T.C. Brown and M.L. Brown-Luedi (Great Britain) 233
Chromosome aberration test and sister-chromatid exchange assay in murine bone marrow cells after in vivo exposure to D-penicillamine alone or combined with cyclophosphamide
by N.D. Nair and R. Vogel (Germany) 237
Radio-adaptive response: characterization of a cytogenetic repair induced by low-level ionizing radiation in cultured Chinese hamster cells
by T. Ikushima (Japan) 241
The *recB* gene product is essential for exonuclease V-dependent DNA degradation in vivo
by K. Brčić-Kostić, I. Stojiljković, E. Salaj-Šmic and Ž. Trgovčević (Yugoslavia) 247
Mutagenesis by the anti-tumour drug nitracrine in *Escherichia coli*
by D.C. MacPhee and D. Liaskou (Australia) 251
Inhibition of the adaptive response of human lymphocytes to very low doses of ionizing radiation by the protein synthesis inhibitor cycloheximide
by J.H. Youngblom, J.K. Wiencke and S. Wolff (U.S.A.) 257
Role of the viral and cellular encoded thymidine kinase in the repair of UV-irradiated herpes simplex virus
by A.J. Rainbow (Canada) 263
DNA-damaging agents show different kinetics in induction of heterothallic mating-type switching during growth after treatment in yeast
by R.H. Schiestl (Austria) 269
